DABBLU ALI

Full Stack .NET Core Developer (1 Year Experience)

Delhi | dabbluali3@gmail.com | **LinkedIn** | **8433387232**

SUMMARY

Full Stack .NET Developer with 1 year of professional experience in designing and developing scalable web applications using ASP.NET Core MVC and Web API. Skilled in developing RESTful APIs, implementing secure JWT authentication, and collaborating within Agile teams. Delivered 3+ real-world projects using ADO.NET, EF Core, LINQ, Angular, and SQL Server with clean code and strong debugging skills.

PROFESSIONAL SKILLS

- Problem Solving s Debugging
- Team Collaboration s Communication
- Design Understanding
- Visual Design Sense
- Quick Learner s Adaptability
- Time Management
- Basic DevOps Knowledge
- Unit Testing
- Clean Code Practices

TECHNICAL SKILLS

- Languages s Frameworks: C#, .NET Core, ASP.NET Core MVC s Web API
- Database s ORM: SQL Server, ADO.NET, Entity Framework Core, LINQ
- Frontend: HTML5, CSS3, Bootstrap, JavaScript, Razor Views
- API s Security: RESTful API Integration, JWT Authentication, Rate Limiting, Middleware
- Principles s Patterns: OOP Principles, Layered Architecture
- Tools: Visual Studio, SSMS, Postman, GitHub, Swagger

PROJECTS

Hotel Management System   Jan 2025 -Present

Developed a Hotel Management System with secure user authentication and role-based access using ASP.NET Core MVC. Implemented key modules such as room booking, customer management, and automated billing system. Integrated SQL Server for storing and managing relational data using Entity Framework Core, LINQ, and ADO.NET. Designed a responsive UI using Bootstrap and Razor Views for seamless user experience. Followed OOP principles and layered architecture to ensure clean, maintainable, and scalable codebase.

EXPERIENCE

Project Engineer

Hindsol Software, Varanasi   Jan 2025 – Mar 2025

Contributed as a full stack developer to a Hotel Management System that improved booking accuracy by 60%.

PROJECTS

Billing Software   Apr 2025 – June 2025

Built APIs for invoice generation, customer/product management, and GST tax calculations.

Applied ADO.NET + EF Core hybrid pattern for optimized DB access.

Designed normalized database schema to avoid redundancy.

Used Postman for functional testing.
